

Environmental Policy

In providing our services, we seek to minimise the environmental impacts of our operations. As a Board we are committed to:

- Minimise waste by evaluating our operations and ensuring they are as efficient as possible.
- Minimise toxic emissions through the selection of modes of transport, especially through the use of electric vehicles and our sources of power, where applicable.
- Actively promote recycling both internally and amongst our customers and members.
- Source and promote a product range to minimise the environmental impact of both production and distribution.
- Promote appropriate consideration of sustainability and environmental issues in the services we provide to our clients.
- Meet or exceed all the environmental legislation that relates to the Company.
- Measure and take action to reduce the carbon footprint of our business activities
- Use an accredited program to offset the greenhouse gas emissions generated by our activities.
- Review our environmental policy regularly, at least annually.
